Appl. No.:	10/586,998	Group Art Unit:	TBA
Filed:	7/21/2006	Examiner:	TBA
For:	TWO-COMPONENT RNA VIRUS-DERIVED PLANT EXPRESSION SYSTEM		

**RESPONSE TO NOTIFICATION TO COMPLY WITH REQUIREMENTS FOR
PATENT APPLICATIONS CONTAINING NUCLEOTIDE SEQUENCE AND/OR
AMINO ACID SEQUENCE DISCLOSURES**

Mail Stop Sequence
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Notification to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures dated January 22, 2007, please replace the sequence listing and the computer-readable form as originally filed in the present application with the sequence listing submitted concurrently herewith using the EFS-Web Electronic Filing System.

According to the Raw Sequence Error Summary that accompanied the Notification to Comply, the sequence listing and computer-readable form included invalid explanations under the status identifier <223> for SEQ ID NOS: 1-13 and 15-18. The Error Summary indicated that the source or the genetic material should be listed in status identifier <223>.

To comply with the sequence rules, Applicants submit herewith an amended sequence listing in which status identifier <223> has been amended for SEQ ID NOS: 1-13 and 15-20 to indicate the source of the genetic material.

It is submitted that the amendments, made in accordance with 37 C.F.R. §1.825(a), included in the amended sequence listing filed concurrently herewith do not include new matter.

Respectfully submitted,

David M. Saravitz
Attorney
